Plastic VeloBind Strips

Top and Side Bound

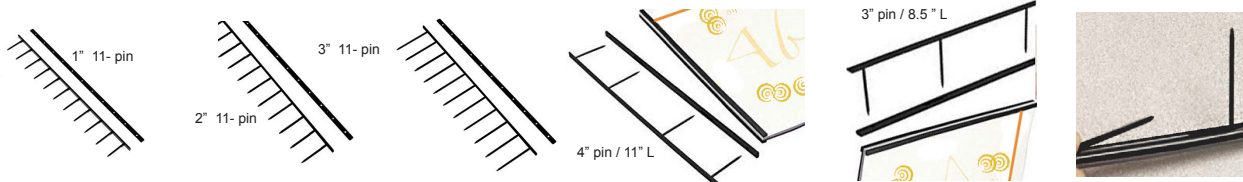

Report Covers/Tax Returns

Report covers and extra thick tax returns have always created a binding problem. Keeping these reports looking attractive, presents a unique challenge. Using a special inexpensive VeloBind system (not the hot knife system), reports of up to 200 pages may be attractively bound. These reports can then be taken apart and reassembled for any last minute changes, additions or deletions. Your clients can also take their returns apart (for purposes of photocopying) and reassemble them, without your assistance.

Equipment Required:

- **Electric VeloBinder Punch (V100e) – \$145**
punches up to 20 pages at one time.

Note: If you already own any hot knife binding equipment, you can punch holes with this equipment and use the VeloBinder binding strips. There is no need to purchase additional equipment. If you have *Surebind* equipment, you will need new punching equipment, as the punching pattern will not match the VeloBinder strips.

CAPACITY	SECURE BIND STRIPS	TYPE	QUANTITY/BOX	PRICE/BOX	#BOXES	TOTAL	COLOR
